

VASAVI KADARI

B.Tech Computer Science Student | Aspiring Data Analyst | Data Science Enthusiast

Hyderabad, India | vasavireddy2006@gmail.com | linkedin.com/in/vasavi-kadari2006 | github.com/vasavireddy332

PROFESSIONAL SUMMARY

Computer Science student passionate about transforming data into meaningful insights and building practical technology solutions with Python, SQL, Power BI and REST APIs. Strong analytical skillset with hands-on experience in data modeling, exploratory analysis, and automated API development.

EDUCATION

B.Tech — Computer Science Engineering

Sri Indu Institute of Engineering & Technology, Hyderabad, Telangana

2023 – 2027

CGPA: 8.0

TECHNICAL ARSENAL

Programming & Web:	Python, C, FastAPI, REST APIs, SQLAlchemy, Uvicorn
Data Analytics & BI:	SQL (T-SQL / MySQL), Pandas, NumPy, Power BI, DAX, Power Query, Excel
Databases & Tools:	MySQL, SQL Server, Git, GitHub, PyMySQL, Pydantic
Analytical Competencies:	Data Modeling, Trend Analysis, Customer Segmentation, Data Storytelling

FEATURED PROJECTS

Global E-Commerce Sales Analysis

[SQL Server](#) | [T-SQL](#) | [Excel](#)

- Executed SQL analysis on global e-commerce dataset to evaluate revenue patterns across countries & categories.
- Applied SQL window functions, CTEs, and aggregations for revenue ranking, trend identification & outlier detection.

Online Retail Sales Analysis

[SQL](#) | [Database Design](#) | [Aggregations](#)

- Designed normalized relational schema for Customers, Products, and Orders to analyze customer purchasing behavior.
- Built SQL queries using joins and subqueries to calculate Average Order Value (AOV) and customer repeat rates.

Customer Trends Data Analysis

[SQL](#) | [Python](#) | [Power BI](#) | [DAX](#)

- Created an end-to-end data pipeline combining SQL data extraction, Pandas preprocessing, and Power BI dashboards.
- Formulated custom DAX measures for real-time KPI tracking, customer segmentation, and executive summary reporting.

FastAPI E-Commerce CRUD API

[Python](#) | [FastAPI](#) | [SQLAlchemy](#) | [MySQL](#)

- Developed high-performance RESTful API microservices for product catalog management using FastAPI & Pydantic.
- Integrated SQLAlchemy ORM with MySQL database for secure parameter validation and robust CRUD workflows.

PRACTICAL EXPERIENCE & CERTIFICATIONS

GenAI-Powered Data Analytics Job Simulation — Forage

- Completed data simulation involving financial datasets, validation of AI insights & reporting.

Certifications:

- SQL (Intermediate) - HackerRank | Python for Data Analysis - Simplilearn
- Data Analytics with Artificial Intelligence - SQL School Institute | Power BI Workshop
